

## California Providers – Los Angeles and Ventura Counties

The Governor of California has declared a State of Emergency in response to the several wildfires. For details and actions required:

- [Provider Support CA Wildfires 2025 SCAN is here to help](#)
- [State of Emergency](#)
- [Prepare for Mudslides and Debris Flows](#)
- [2025 Southern California Wildfires Available Waivers](#)

For Member and Patient resources [click here](#)

Additionally, if your organization has experienced or experiences any related emergencies that cause access to care issues, operational and business disruptions or any other significant care or business impacts, please report those incidents to SCAN effective immediately and daily thereafter until further notice. If there are no identified issues/impact to report, you do not need to inform SCAN. In the event that an incident needs to be reported, please contact the SCAN Network Administration Unit at:
